My Crazy Inventions Sketchbook: 50 Awesome Drawing Activities For Young Inventors

Synopsis

Do you have some crazy inventions up your sleeve?! This book is jam-packed with Andrew Rae's amazing drawings showing all sorts of real inventions that seem too weird to work. How about a dog umbrella? A submarine that looks like a plane... or even a shark. A swimming machine where you don't get wet? A car wash for people? Someone has even made a device to charge your phone using a hamster! There is plenty of inspiration to get kids' minds going, and plenty of room to add their own crazy inventions to the mix. They can design the best dune buggy ever, create a brand new sweet to share with the world, or even draw their very own Transformer dinosaur! Includes a patent certificate for their very own crazy invention!

Book Information

Paperback: 128 pages

Customer Reviews

Andrew Rae is an illustrator and member of the illustration collective Peepshow. He studied at Brighton University and has worked for many clients worldwide in advertising, print, publishing and animation. He currently lives and works in London.

Such a creative and fun book. Was purchased for my 6 year old. He may be a bit small for some of it, but it's something we can do together!

I purchased this for the nephew, a bright creative second grader. I'm pretty sure it's the best gift I've ever found for him. He proudly sat down to show me many of his creations a few months later, and it was awesome. He still has many more pages to work on, and is excited about those too. I highly

recommend for any kid who talks about inventing things.

Fun activity book with imagination. Recommend this book.

I am so happy with this purchase! I bought this for my daughter for Christmas and I cannot wait to give it to her! This book is awesome!!

My 6 year old loves this book! There are plenty of activities that keep him occupied and encourage creativity.

Cool book.

A great book for the reluctant reader/writer. A fun format where creative minds can add to ideas already presented. I wish there were more of these types of books.

Such an awesome book!
