## Customer Reviews

This complete collection of the Jade Crew bear shifters of Genesis Valley is a fascinating tale that

includes other legendary creatures of dragons, gryphons, even vampires. Add them to the brave, yet a bit feral, bear shifters, and the story takes on mythical proportions. Genesis Valley is a mining community, where renegade bear shifters can get a second chance at life. But mysterious happenings are all around and clearly not all is right in this town.. As the Jade Crew is pulled into even more violent situations, confused by strange behavior of other shifters, they also discover how positive and steadying an influence strong, determined women can be as they find their true mates. There are some minor editing issues in this collection, but overall it's a gritty, intriguing story of hard fought & hard won life.

This was a great boxed set about shifters bears and their human mates. The LMC and Twin brothers controlled this town of bear shifters who mined for deceased stones of dragons. These are the misfit bears that had problems with society and this were their last chance to live a productive life and work. Origin was the area that the first dragons had evolved and came back to die. Their precious stones when unearthed were taken with care for protection against rogue dragons.

Woot! Woot! So glad these are all bundled together now. This is one of my favorite series and I can't believe that it's finally bundled. :) Fantastic Deal!

This was a really great series, could not put it down had to see what happen next, and wanted to see who would be mated next, and when the new cubs would come, the fight to save the home of all the bears was hard won fight, but the mystery of who was causing the trouble kept you guessing almost all the way though the series, the ending will surprise you in the end

Great, great, great. I will recommend this author and this set of books to my reader friends.

Here you've got it all. You've got plus size woman, fights, passion, ups, downs, war, and redemption. The jade crew were a band of misfits that found their own way and made life with their mates that much better. I loved these stories and am sad to see them end but am excited to get the jade crew as a whole and with HEAs.

This was a great adventure for me, I was inspired by the characters, and can,t wait to start on the next book. I have read the books before reading this book, and I will gladly share this book with friends.

This is an AWESOME box set !!! I love the way the stories just flowed !! And for me one of the best parts is that I got to read the entire series back to back I love reading from the start of a series to the end and can not wait to get more from this author !!
