I'm dumb so anything works. I do like the 6 in 1 concept. So I can advance without having to buy a separate book each time. I would rather have a CD/DVD with the audio files on them vs downloading. Was a little bit of a pain finding the right path through the site to download. All-in-all I like the product. Molto Bene.

This is an excellent aid to learning Italian. Took private lessons for 3+ years and have used many other texts. This, and the little book by Olga Ragusa are certainly the best.

I have a hard copy of this book and found it very helpful, but traveling and carrying a tonne of books is difficult. That is why I decided to get this version for my iPad. I am really enjoying the expanded version and it is great to have it just on the iPad. This is actually the first eBook so I am just getting used to the format.

It is pretty well done. I purchased the online copy which is ok, but I really miss the soft cover edition which I could use as a quick and comfortable reference point.

Excellent (but, then I find the Dummies books quite informative.) Great for studying ,and while I have not finished it, it is by far a valuable learning tool. Thanks for the hard work

A great book .Laid out well so you can pick it up and put it down anytime. Grazie

Disappointing. This is more like conversational phrases. I was looking to learn the language, not memorize conversational phrases

This a 600+ page book and I have only done first chapter but I like it. I have skimmed through the other chapters as well and they look good as well. Great resource to use with DVDs or CDs to actually hear the pronunciation.
