Customer Reviews

Love these little books as a kid. I originally had the Civil War book from this range, and there aren't many wargaming guides for the Boer War so I picked this one up. Provides a lot of information on uniforms, equipment, tactics, scenarios and even concepts to consider when gaming this conflict.

This is the first book I have found with rules for this war. Lots of information. I was inspired to buy one of the books that it was referring to.
