Best Sellers Rank: #1,490,264 in Books (See Top 100 in Books) #93 in [Books > Religion & Spirituality > New Age & Spirituality > Divination > Palmistry](#)

Customer Reviews

this book could not be more useful or informative if it tried. If you ever had a curiosity to try and learn how to read palms, this is definitely the book for you!!! it is so detailed that you can't help but read it again and again

This is one of the few palmistry books that starts to pay attention to the science behind palmistry. It is by no means totally inclusive nor conclusive, however, it is a helpful resource.

This book is quite informative. Not only does it include basic palm reading, it has a history of palm reading and how it is used in different cultures. The main drawback was the fact that it was difficult to locate the specific guidelines to palm reading. However, once I had paged through the book a few times, I was well-enough acquainted with it to do a basic reading for several people.
