Customer Reviews

I have skated for over 20 years, Rodney Mullen is a hero of mine so I was looking for a book that was somewhat indepth and factual. I think this is the best skateboarding book I have read. I thought I knew a lot about Rodney but this book taught me a few things I didn't know. I'll read this book again someday, too good to read just once.

Want a great narrative on the history of skateboarding? You know how hard it is to get kids to do summer reading. Well, if your child is even a little bit into skateboarding--guaranteed they will want to read this book...and finish it!

Excellent research on the full history of the sport and how it got its place in mainstream sport culture. Louison pulls you into the world of the skateboarding greats including Ryan Schekler and

Rodney Mullen -- how they got to where they are and the road they traveled. Great description, insight and storytelling.

Terrible! Slow and over analyzed.

my student seems engaged in this book and skateboarding is all he is interested in.
