# The 5 Senses (Let's Learn About)

## Synopsis

Beginning readers follow the activities of two children who take delight in discovering the world around them. A beautifully illustrated volume tells their story, and suggest activities for preschoolers and early-grades children, who learn about the five senses. Rosa M. Curto's delightful color illustrations enhance every page of both books.

## Customer Reviews

(back cover) Boys and girls discover their five senses: sight, sound, smell, touch, and taste, as they enjoy the outdoors and nature, listen to music, prepare food in the kitchen, and engage in other activities. A two-page section at the back of this delightful book suggests teaching guidelines for parents. Another Let's Learn About book available from Barron's . . . The 4 Elements

The book is a good picture book, lots of information. The first couple of pages look like it had water poured on it and have ripples. I ordered a new book.

The book was good for helping my first grade students learn about senses. The students enjoy having it in their book buckets to reread during independent reading. The book is in good condition and is a great addition to my classroom library.

This is a fun way to teach our children about the five senses and our teachers enjoy using this book to help them.

I bought it for a kindergarten unit on the senses, and it was okay.

the children love it

Cute for my preschoolers. Lots of simple info.

This is a great book for teaching preschool children about their senses. It goes along with themes regarding our senses.

Great needed this for our Pre K unit
