An introductory chapter "Why Do We Study Art?" explains many of the interpretive methodologies used to describe and understand works of art. Drawing studies for major works of art provide a glimpse of the artistic process. Large-format illustrations, often with multiple views (for sculpture) and details (for painting), enhance appreciation and understanding of art. Context essays and technique commentaries help students interpret artworks by offering cultural and historical background, and by explaining media and techniques. "Connections" features show how a particular work of art was influenced by or otherwise relates to an earlier work of art. Beyond the West essays introduce world art outside the Western canon.

I put in a ISBN # and this book popped up. I ordered this book which later to find out that this book is NOT the book I searched.

Bought this for an Art history class and was in love with the book. It had a great variety of art and the history behind the art from that period. It also delves into how the actual history of a people affected art and taught me a great deal of not only the art, but of people's cultures.

The book was not in good condition or even fair condition at all. The edge of the book was tore up and the front of the book was tore up. Very displeased with the book I paid a lot of money for.

Excellent book and perfect condition.

The book came with weird tiny markings in it on probably every 1/20 pgs. It was good though, did its job in my suckish class.

Perfect.

Great condition.

Needed the book and it came on time! It has all the information I need to make an A in my class (which I have). I rented and it was so inexpensive and useful.
