Customer Reviews

Praise for Dog Lover Adult Coloring Book* "With all the adult coloring books out now, as a dog lover this one is just right." -- Tim, 5-starred review* "This coloring book makes a great gift for the dog lover in your life (or yourself, duh). Cute designs of a bunch of different dog breeds. Some are cute and playful, others are more regal, but all are worthy of your colored pencil collection!" -- Customer, 5-starred review* "Nice book well made, great page layouts. Paper is nice not too flimsy. I purchased this as a gift and I was not disappointed. I would buy this item again. I have found that some of the other books I have purchased are not as well made, either the paper is too thin, or they are too small." -- Soledad, 4-starred review* "I just received this book as a gift and it is the best

coloring book I've colored in so far. The artwork is very detailed and beautiful. I like that the pages are only on one side. If you use markers, crayons, or colored pencils it won't offset onto another image. Get this book, you'll enjoy it!!" -- Chris Dunham, 5-starred review

My daughter had me on a buying spree at B&N and since there was a great sale, I picked up a few books for her and my son. This was there, and although we both love our dog and really liked the book, we were overloaded at the time and had to keep this one on our plate for next time. We really liked the dog designs and they were fun and playful, really well done! I noticed it was a really well done book with quality pages and was very nice. Even though the pages were very good, I would still recommend using a safety sheet underneath, if you're going to be using markers. She uses mostly pencils and the sheets are excellent for that. This book is a WINNER!

This dog coloring book has a few really great pages with tons of detail and then it has "less hard" pages that are easier to complete in a quick time period. The pages that are less detailed tend to have bolder lines too. Although there are a good bit of breeds represented in this book I would have preferred a few more. I really enjoy coloring in this book with markers as I found I get good vivid pictures so it is really nice to have the one sided pages. I do put some extra sheets of paper under the page I am working on just to make sure they don't bleed through but that hasn't happened yet.

I am 50 years old and I still love to color. When I saw this coloring book of dogs I knew that I had to buy it. I owned a dog boarding and grooming facility up until last November when I sold it. So I'm a little partial to dogs and had to have this to color. The pages are thick so the color does not bleed through to the next page. There is every breed of dog that you can think of in this book. This book is what I call "easy coloring". Not a lot of tiny little places to color, most are larger. Even though I love this coloring book, I think small kids would do really good with coloring these dogs. I will be coloring a few of these pages for some dog lovers in my family. And they will be receiving them for Christmas. They will be colored with neon gel pens then cut out. They will be glued to black poster board then put in a frame. I'm gonna make some family members happy this year!

Nice book well made, great page layouts. Paper is nice not too flimsy. I purchased this as a gift and I was not disappointed. I would buy this item again. I have found that some of the other books I have purchased are not as well made, either the paper is too thin, or they are too small.

Some of the pictures, like the cover picture were very good. However, some looked very cartoon-like with large Powerpuff girl eyes and other strange features that make the adult coloring book feel more like a highlight's magazine.

Love the images but the paper is a scratchy and odd texture and made coloring difficult because it had an awkward feeling on your hands.

I LOVE this book but then again, I love dogs.... great pictures, especially love the poodle and the basset lololol.....Paper could be better but you can say that about most all coloring books, but other than that, great book

My 11 year old daughter was thrilled to find this in her stocking. She loves dogs as well as the "adult" coloring books. She enjoys coloring it with the Staedtler markers which typically don't bleed through the pages. The pages have enough details on it that she feels mature while coloring it.
