...fantastically bright and amusing illustrations...a charming read. * Baby & You * Quirky book of contrasts with amusing illustrations...Very sweet. * Prima Baby * --This text refers to an out of print or unavailable edition of this title.

Leslie Patricelli lives in Seattle, Washington, with her husband, their two children, and two kitties. She sketched out her first children's book, YUMMY YUCKY, when her then one-year-old son was putting everything in his mouth. "After hearing myself say 'yucky!' or 'yummy!' for months on end, this book seemed to write itself," she says. "Talking to and watching my young children all day gave me a voice and inspiration for these books. I write down what I say to them and what they say to me."

The pictures in Leslie Patricelli's books are great. That is probably my favorite part about them. All of her board books, including this one, have very few words on each page. My son especially enjoyed them around the time he was 12-15 months and wanted to help turn pages often. I could still get through the text before he was ready to move on. He still likes them at 2.5, but he now has more patience for more words (most of the time).

I have 5 grandchildren and the 5th one (18 months old) is getting started on this series of books. Leslie Patricelli's books have been among my other grandkids' favorites. The illustrations are terrific, the stories are simple, funny and very entertaining. "Big Little" is, along with "Yummy Yucky" and "No No Yes Yes", among the best of a terrific group of kids' books.

These books are great!

All her books are great.

Grandson loves!

A favorite!!

My daughter absolutely loves this series by Leslie Patricelli. She's only 22 months and already has memorized a few of them!! Good addition....but I don't like the bass drum page. Just me being picky.

My 15 month old son enjoys this book but prefers Patricelli's other books that we have. I think it is because we can add a lot of sound effects to the other books whereas this book has fewer things that can make different sounds. Still, it is a good book and Patricelli's illustrations are so good at catching a small child's attention. The board book is a durable format and the size is large.
