Customer Reviews

This is a great sampling of Chopin's work AND it includes a CD of the music you may be able to learn to perform! There are some pieces I will be able to tackle and others I will not (I mean it IS Chopin after all), but with decent sized print and the help of hearing the various pieces performed, I've got a pretty good chance of learning several songs. The book contains a polonaise, a nocturne or two, some preludes and mazurkas, and Chopin's favorite etude. I have three other Alfred Masterworks piano books and believe I will be sticking with them if for no other reason than the consistent and slightly larger print--it makes all the difference.

I love it.

As expected. Prompt Shipment. Nicely packaged.

These are what I wanted and arrived promptly. Thank you!

This is a great introductory collection of Chopin's piano pieces for the intermediate to early advanced pianist. The selections are arranged in order of difficulty and include mazurkas, preludes, waltzes, a nocturne, a polonaise, and an etude. Brief explanations about each composition are included, as well as a short biographical sketch of Frederic Chopin. Highly recommended.
