Customer Reviews

Created by Yasmeen Eldahan, aka YamPuff, a coloring book and digital stamp artist whose art has been colored in by colorists around the world!

I love this book so far. I got it today and have done swatches for my colored pencils, stabilo markers, and gel pens. I love being able to have all of them in one small book that I can take with me anywhere. I only have a few "complaints." I wouldn't mind a few more boxes on each page, as there are 45 and a lot of things come in packs of 48. I added 3 more on the bottom for my pack of 48 gel pens so no big deal, it would just be nice. Another thing is it could use thicker paper, but then the book would also be thicker and maybe not as easy to carry around. I put a piece of cardstock under each page as I was working on it and that seemed to work so also not a big deal. I like that it

is one sided in case some of the mediums bleed through. Overall very pleased.

OMG I have been trying to make a chart like this but never did.get it made. I am a colored pencil fool and have collected over the years way too many, all of the brands I could find. I put small peanut cans on a cake 'spinner', glued them to the 'spinner' and separated according to color. I must have at least a thousand (I am not kidding :)) I never could find the right color and had to sort through the whole can looking for what I wanted. This is a blessing, not only can you find duplicates, see what color I want, know just how many I have and lastly to see the duplicates not exactly the same. What a Godsend! !!!!!

I love this book! It's almost perfect for me, but nothing that would take away from the 5 stars!! I use all types of coloring media, including soft & hard lead coloring pencils. All different brands and I keep them separated by type and brand which makes this book perfect. Only 2 things that would make it better. 1-if it had tabs of some sort, so I created my own with post it flags. 2-Different binding with removable pages. This would allow me to arrange my pages together for types when I get new ones. Markers, pencils, watercolor pencils, colored pencils, & gel pens.

There is not a whole lot to say about this book, but I'll try. This book is just set up for all of your color "swatches" of all of your pens, pencils, markers, etc. Just page after page of little boxes. That being said, you certainly don't have to buy a book to keep track of all of your media. I've tried all sorts of ideas, the best was a three ring binder. But if you want to take your coloring or other art projects with you, that binder is awfully large. If I just take the appropriate pages with me, I had a tendency for them to get all mussed up and even lost. Welcome Yampuff's little book. It's a smidge bigger than pocket sized, and yet you have all of (or most of) everything you need. It is going to be the "ace in the hole" that I have been looking for. I use many different pencils, and I'm pretty sure that this little book can handle them all.

Love these color charts for keeping track of colored pencil or pen colors I am using on a project. They also come in handy to make your own color chart from colored pencils/pens sets as I find the pencil/pen barrel color does not always match the color it puts on paper or other media.

I have so many pencil sets, gel pens, markers, etc that thou I can make swatches, having it done for me is going to help me swatch all my stuff is such a gift!! About my only concern is how easy it will

be to get to the center pages to the last. For that reason, I am taking off one star. If it holds up the last page, I'll come and let you know but for right now, it works for me!

Definitely recommend getting this. It's so helpful for keeping track of your color collection and makes it easier to figure out what colors to use in a picture or blend together.

I suffer from memory loss therefore normally have pieces of paper scattered everywhere to remember colour I've mixed but now I've a colour chart for now and in the future .
