Customer Reviews

"Want to showcase your scholarly knowledge of Metallica in a way that really brings the room together? Fortunately, the superstar metal group have just the thing a coffee table book about the making of Master of Puppets." Eclaim! online "Metallica: Back to the Front features photos of original art and lyrical ideas, rare pictures (including one of the band in their bath robes and bare feet where you can see eight Metallica tootsies), interviews with every member of the band along with producer Flemming Rasmussen as well as fans." Loudwire.com "As Ulrich reveals, the book features photos, original art, ideas for lyrics, and interviews with the band, producer Flemming Rasmussen and fans. Though the book is actually 276 pages not 9,000, as Ulrich says it s packed

with information vital to fans who have a deep appreciation for the album and Metallica."

Insight Editions is a publisher focused on creating superlative illustrated books on photography, music, and popular culture. Lavishly produced and visually stimulating, every volume from Insight is dedicated to the skillful interplay of word and image. The books produced are unique works that combine the highest quality print production values with the time-honored traditions of publishing and rich subject matter. Elegant and informative, books from Insight showcase the best of art and photography in exquisite presentations of the bookmaker's craft. It is based in San Rafael, CA.

I got this as a gift for my brother. The art is great! Many great past comic book covers and classic comic book art. I could not give this 5 stars though. What I do not like is that there is art on both sides of the page. This is the kind of book where you can do your own inks/colors for your favorite comic book cover. The problem is that your second favorite might be on the back side. Coloring books are for adults now and should be created for adults in how they are put together. All in all a great book!
DC Comics Coloring Book

I adore this. I'm using markers. (Ohuhu, 40 colors, fine/broad ends) The colors will bleed to the next page so I did have to pick and choose on a couple of pages.) The art is near perfect/wonderful days of the four color comic. Glory days of the 60's, 70's. A few hit 50's/current times. Take your time with markers and this EXPLODES into life. Great job.

LOVE this coloring book. Great product and fast shipment. Highly recommend!

Overall, it is a great coloring book for any hardcore DC fan. The Wonder Woman pages were perfect! I agree with the other reviewer that it can be frustrating that the pages are double sided. My other frustration was that Supergirl was literally nowhere to be found! I haven't seen her on a single page... Also, it would be cool if they had pages at the end that had characters from the current TV series (Legends of Tomorrow, The Flash, The Arrow, Supergirl). This would appeal to younger fans of the DCEU.

The book is pretty cool . The pages are double sided however they are pretty thick that I doubt markers will bleed (haven't tried markers yet) ...The only reason I didn't give it a 5 star rating was

because at the end of the book there are some comic pages , one of which shows Speedy shooting up drugs. There should be a warning when you're buying it so that you don't accidentally give it to kids (like I did) .

As a DC Comics fan this coloring book is right up my alley. Has many interesting covers from all of the eras and most of the major heroes are represented. There are some pages in the back of the book that show what the actual covers looked like in full color to use a reference if you want it. Many of the images brought back fond childhood memories from when I collected comics in the 70s and 80s. Overall, a fun book just for the images. Being able to color them is a bonus.

Great coloring book downside is that it's doublesided and I usually use markers when coloring but I like that a lot of them aren't too small into details

Love it, super cute.just wish there were blank back sides to the sheets.
