## Customer Reviews

Dr. James A. Young, a research scientist for the U.S. Department of Agriculture, has achieved worldwide recognition and respect among professional natural resource managers as an expert on native North American seeds. His wife and coauthor, Cheryl G.Â Young, has been closely associated with this work, organizing and compiling the diverse literature and findings from throughout North America. Cheryl G.Â Young, has been closely associated with work on native North American seeds, organizing and compiling the diverse literature and findings from throughout North America.

Excellent source of info on seed germination applicable to the novice and expert. What I liked best were the succinct pretreatment and planting directions for a wide variety of trees and shrubs. I also found the information on collecting and storing seeds immediately useful and valuable.

Great resource
