Customer Reviews

There is no one path to becoming a Life Coach but there are things that every Life Coach needs to learn to run a successful business. Lin takes many complex issues and breaks them down to their easily understandable versions so you have a basic foundation of everything you are going to be doing for your business in one place. There is a great Steve Jobs Quote that says "That's been one of my mantras - focus and simplicity. Simple can be harder than complex: You have to work hard to get your thinking clean to make it simple. But it's worth it in the end because once you get there, you can move mountains." That is what Lin does with this book. Every step broken down, and explained as if she was sitting at your side like a wise, yet sassy guide through the jungles of creating a soul fulfilling business. Also - she makes really dry topics like company formation and taxes sound fun and less intimidating through her very approachable writing style. Starting and running a business is often like moving to another country - no one book could contain every piece of information you would need to know to succeed, but Lin's book is a great checklist of all the areas you will need to become familiar with as a business owner. The book provides a great overview of each item so you know enough to determine what your most immediate next step needs to be. NOTE - I received a free review copy of this book in exchange for an honest and unbiased review.
