## Customer Reviews

As a former long-time Disney executive who owns lots of Disney collectibles, this is the best book that I've found in giving me a clue as to what items are worth. It is a very comprehensive volume that touches upon all aspects of Disney memorabilia in terms of price guidelines. While it of course doesn't list every Disney item that could be considered "collectible," it provides an amazingly comprehensive sampling overall. I would recommend it. Author of the Kindle ebook, *The Ten Secrets to Organizing a Nonfiction Book*.

Read it all the time

If your a Disney collector this is the guide for you.

I would classify this as OK not great not terrible. It does have a ton of stuff in it but it's very difficult to find what you're looking for. It's separated by character with no index.

The book is nice but did not include much info about VHS movie tapes. Still looking for a source for black label Disney VHS tapes.

Got this for my brother who loves Disney and works as Disney Engineer! Good gift!

time to update this book

The service was good but the book does not contain the collectible pieces that I thought would be included. I was hoping to find prices for the WDCC pieces but did not.
