Their purpose is to support individuals as they shift into Unity Consciousness and return to their natural state of joy. The Council transmitted the teachings in this book for those seeking to accelerate their journey toward health, wealth, happiness, and their soul's deepest desires. The Council's teachings reveal that by shifting your consciousness and raising your inner vibration, you can change your daily life experience and manifest the life you want. These direct transmissions of spiritual technology from the Council include activations for the 11 Rays of Light, guided journeys and meditations, and written, spoken, energetic, and breathwork exercises to creatively turn your debt into wealth, transfigure your food into light for better health and well-being, enhance your abilities for interdimensional travel, and return to your natural inner state of joy. The Council explains how each Ray of Light has a specific vibration and application and can assist in removing any blocks to achieving your soul's purpose. The Emerald Ray, for example, activates the signature energy of your authentic and full self, and the Venus Ray, the Ray of Opulence, supports alignment with abundance and prosperity. Offering an opportunity to form a direct connection with the Council of Light, this book provides practical tools to move from a life of worry, debt, exhaustion, and isolation to one of joy, abundance, purpose, ease, and connectedness, with a team of Divine supporters to assist you along the way.

As many of the other reviewers pointed out... when you are ready for this, it will come to you. This is what happened to me. I have been what one would call "awakening" for some years now, which is to say, "remembering" my natural state. I was really struggling a few weeks ago... I kept injuring

myself and even had a small car accident and I knew there were messages I just wasn't understanding through my physicality. I didn't know up from down. I wanted to both be in my body completing my mission here and to also leave my body, to float right on up through those beautiful clouds to the stars... I'm sure any of you reading this know what I mean. I had so many questions and just a lot of frustration. This was different from the original wake up call and 'ascension' symptoms I have been experiencing for years now. It felt like... I was ready to plunge down the rabbit hole but I had no mentor, no tangible guidance. Though I knew and was told I was supported by my support crew on the other side, I felt very much like everyone and everything was leaning on me and yet I myself had no one to lean on. I confided in a long-distance friend who has been through this and sent her an email, with the subject reading "I Still Need Help". Now, I need to explain what I do for a living. I take photos of vehicles at a car dealership and upload them to the web. Well, I sent this email to her, trying not to cry at work and just feeling so aimless. I then went out to take some pictures. When I came back inside and was uploading photos, I noticed one I took of the vehicles radio. It said "12:34 HELP". For those of you who know about angel numbers, the "1234" was clearly an ascension number, as in progress, progressing up. And then the radio data says HELP. I added this photo and another for your viewing pleasure. I had NO clue this is what I took a photo of at the time, no idea what was on the radio, and no idea what time it was. I thought it was coincidence at the time, but then 'The Council of Light' popped up in books recommended to me on my Kindle app. So I bought it and I am so glad I did, there was my Help. Almost immediately, my friend emailed me back and said she was looking for an article on chakras to send me but felt very strongly to send me one of AA Gabriel and it was about Heart Chakra Activation. I was looking through photos the same time I was reading her email, going back and forth so as to accomplish both in a timely fashion, and that's when I saw the photo that says 'HEART'. I just wanted to share this with any and all of you looking at these reviews because it is NO coincidence that this book found its way into your beingness. I have only read about a third of the book because I find I'm having to do the exercises multiple times. I have made contact with MY council and now KNOW that I am supported and I'm having most of my enigmatic questions finally answered. Thank you GOD for creating a support system for us, for the Love we call God is All That Is. I plan to update again when I have manifested some really juicy changes in my life :) Namaste y'all!!

AMAZING book - if you are drawn to this book you are meant to have it and use it. I do a bit each day - read then do simple meditative exercises. The Council of Light is a beautiful group of LIGHT beings who are helping us discover hidden parts of ourselves and to bring them forth so that we can

live our lives manifest according to the gifts we already possess within our souls. Once you start going through the book, The Council of Light beings are available to you upon command if you need them and their support :)

This is great I knew that the Council of Light was here, well I didn't know they were called the council of light but the other way around in the beginning I thought they where just aliens from another planet and they are, but they are much more they are our Ascended Masters the entire universe is connected by this council all the other civilizations are connected except use we are the last planet in the entire universe to be invited into the Counsel of Light you need to make the transition into the light it's not really an invitation you need to join the light they are working on the dark forces that run this planet now and we have to ask them to help use they are not allowed to interfere they are governed by their laws. This explanation could get really long but you should be prepared and it will take some time buy this book and get started. These civilizations have a 10 million year head start on use and they have great technology's in every field Just a couple things they have a device the size of a large refrigerator that will take the place of a Nuclear Power plant and we won't need to buy gas for the car we drive right now. You have a lot to learn take a look.

Another wonderful book by Danielle!It is far from your typical book or text, but rather an inspiring guide to spiritual contemplations and meditations with imaginary visualizations and written exercises to make it simpler and more applicable to our everyday life. Although made simpler than most similar type of books, it is just as deep, if not deeper than any I have read.I found that some of the Spiritual Rays introduced by Danielle and the Council of Light were easy for me to follow the instructions and to integrate while other ones I found almost impossible. However, the one or two Rays I found obstacles to, I will go back to and make several more attempts to receive and integrate them into my Being. I would advise other readers to do the same.An excellent, awe-inspiring read!Alice Oppen (Australia)

I wasn't expecting much but found many of the exercises very helpful. I wonder who someone is actually channeling when they claim to channeled book, but for me, the proof is in the pooding. Worth the read, effective in helping me connect with divine light, in shifting aspects of my emotional ecosystem.

I have been multidimensional aware since 2010. Most of my conscious expansion has been a result

of my own personal experiences. I have read a few books, however, I like to "experience" things rather than reading about things. This book is a perfect match to my style, as it is customized for Self. This book showcases many of my own personal Truths and articulates things I have experienced or know, in such easy, digestible language. We each have our own customized Council Of Light, if you want greater access to your team....this book will guide you there.

Absolutely profound reading. Changed my life. I only read channelled books and this is the best one.

This "transmission" covers all aspects of spiritual growth -- our fears of prosperity love relationships, loving ourselves, and all the other taboos that we have been programmed to believe about not having the ability to control our own lives and how not to give away our power, but how to live in constant joy. I believe that doing the exercises would benefit anyone. Kudos to The Council of Light and Danielle.
