Read on your PC, Mac, smart phone, tablet or Kindle device. Feng Shui employs the principle that everything around you emits energy that can be harnessed and harmonized to bring out a positive Chi (total energy). It's believed that when these energy fields in your environment are in congruence with one another, they generate a powerful energy that attracts success and well-being. In Feng Shui, the bedroom is a pivotal area in your home, strongly affecting the energy force that can boost your chance of success. If you've been striving for success in some aspect of your life and feel seem to have hit a roadblock in your attempts; or if you toss and turn in at night, unable to be at peace, then I highly recommend you consider trying Feng Shui. With it, you can achieve balance, harmony and success by implementing its principles and following the bagua map to reach your goals. You'll not only find it easier to triumph over challenges that come your way, but you'll also benefit from increased relaxation, rest, and undisturbed sleep. Applying good Feng Shui to your bedroom could help you break through that roadblock in your life by aligning the energy fields in your home. Be one of the many who have discovered Feng Shui as the key to a better, more successful life. This book will teach you exactly how to do all of this. It will reveal the basic Feng Shui practices, including the details of exactly how to enhance and optimize Feng Shui in your bedroom. Let's get started! Here Is A Preview Of What You'll Learn... Customer Reviews

We have been working on plans to re-model our bedroom and wanted to incorporate the principles of feng shui into all aspects of it. Not knowing nearly enough about this to not screw it up, we purchased this guide and it's been fantastic. Not only does the book give basic information about feng shui but also gives specific information about applying the principles to your bedroom. Of particular use to us were the chapters on the layout of furniture, bed placement and choosing bedroom colors. A very well-written and well organized book on this subject.

The more I learn about Feng Shui practices, the more I becoming at peace with myself. The most important statement in the book refers to the importance of not entertaining pessimistic views or thoughts when trying to create a harmonious living space. That point alone carries over into all aspects of life and it must be taken seriously. I have been using the information in this book to get my life and living space in order. You are getting a priceless education about well-balanced, peaceful living through the purchase of this book.

Maybe I'm clueless but I had no idea that all of this work went into Feng Shui! I figured I'd paint the walls and maybe move the bed and that's all...but nope there's A LOT of stuff in this book that will improve your bedroom immediately! Chapter 6 and Chapter 7 are my favorite chapters. Chapter 6 is a "Summary of the 10 Steps to Good Bedroom Feng Shui." I used that as a checklist and accomplished one after the other.

interesting book, I have always been fascinated with Feng Shui and I always want to understand how it works. Now, this book has shown me what can be done in a bedroom. We spend a lot of our lives in the bedroom. We all need sleep to recharge after a tough day. Most times we don't give it a second thought. Go to bed, sleep. But if we don't sleep well how do we address that? Ever thought of Feng Shui? No, me neither until reading this book. Good Book.

This book discusses the benefits that feng shui brings to your bedroom. It touches on the basic feng shui practices, including understanding its 5 elements and the colors associated with each element and how to use these to enhance feng shui in your bedroom.

Very basic and common knowledge information-would have liked more details or examples of what to include in each room.

A very interesting book. I have no idea about this Feng Shui until I read this book. It has changed my view on the elements and how it can help me in my life. It is not suspicious but is how you can make use of the nature energy existed around you to make changes. Good read

This book will help you bring amazing energy to you power center of you home, the bedroom. Now you can use the energy in whatever way you wish. Be it in your romantic life or your professional life. Rob @ <http://authorstalkaboutit.com>
