I tried to find for several days a street guide to the area west of Boston (Weston), and I failed even though I browsed Rand McNally several times. This is their fault, but once I found exactly what I wanted, the ordering and delivery were excellent.

Excellent

Not easy to read as the pages are cut off. I was really looking for a map that would be easy on the eyes.

I have yet to find a better, more detailed map than the maps Rand McNally produces under the Thomas Guide name. While this map of Boston is not technically a Thomas Guide, it follows the format faithfully, providing a highly detailed, easy to use map for people who are not content with wrestling with the usual folding, incomplete, and inaccurate streetmap.

I returned this item because I found it very difficult to use. Each city or town is on multiple pages making it hard to find out how to get from one location to another. I could not tell why it was setup in this manner, but it didn't work as an easy guide to get you from one side of town to the others.
