Synopsis

Explains how astrology can help teens understand themselves and take charge of their lives. • The teen market is the fastest-growing segment of the book-buying public. • A perfect party book for teens everywhere. • No previous knowledge of astrology is necessary. • M. J. Abadie has published three previous bestsellers: *Finding Love*, *Love Planets*, and *Child Astrology*. Why an astrology book just for teens? This is the ideal time for them to learn to understand their own inner dynamics and go after the life they really want. And astrology is simply the best tool available for gaining insight into oneself and one's relationships with other people. *Teen Astrology* shows how the Sun represents outer personality, while the Moon reflects the inner self, and how to balance the two. Venus rules matters of the heart, while Mars rules energy and passion. Understanding the dynamics of these two planets can help teens safely navigate the turbulent waters of love. Understanding their Mercury placement will help teens discover their most natural ways of learning, thinking, and communicating. By comparing their chart to those of their parents teens can figure out how to bridge the generation gap and open up new lines of communication. Absolutely no previous knowledge of astrology is needed to use this book--it provides full explanations of all astrological influences and all the necessary tables for locating planetary placements of friends and family.

Customer Reviews

"Teen Astrology is a masterful manual encouraging youngsters to learn about themselves and accept . . . their uniqueness. Interspersed throughout the text are esoteric gems that provide a

spiritual, holistic approach totally missing from the mainstream media. The general tone or writing style respects teens as curious, growing and intelligent." (Chris Lorenz, Dell Horoscope, September 2001)"An exciting addition to the literature of astrology." (Heidi Rain, Spirit of Change, May/June 2001)"Teen Astrology puts you in the driver's seat of your life. Written in plain, nontechnical English, Teen Astrology is not a simplified, watered-down astrology book. It's serious." (CHP, Bodhi Tree Book Review, Winter 2001 / Spring 2002)"This book is an excellent course in astrology." (Barbara Ardinger, The Blessed Bee, Winter 2001-02)"I have heard many different versions from many different astrologers, but I find your version from your book Teen Astrology to be the most effective, true and the easiest to learn, because you can relate to us and our needs and troubles. It is wonderful to have an adult to step out of the authority suit, and fully understand. (NG, excerpted from a 15 year old girl's letter to the author, Winter 2002)"The discussion centers around how astrology can help teens cope with adolescence and the problems experienced by this age group." (Linda Roberts, Voice of Youth Advocates, September 2002)"Teen Astrology is a decent introduction to an art and craft that, used well, can guide you throughout your life." (Lauryl Stone, New Witch, Winter 2002)

My preteen daughter recently started asking me a lot of questions about astrology so we decided to look for a book that was directed more towards helping her understand it in a way that made sense to her and related to teenagers rather than adults. I picked this book because of the interactive exercises included where the reader can reflect on what is explained and how it relates to them specifically. This book goes beyond standard descriptions of sign and element characteristics, and is filled with positive affirmations about being true to yourself and being self aware. I was so impressed with the book that I read it cover to cover before I handed it over to my daughter. The parts of astrology that I found to be a bit overwhelming and complicated to understand in the past were explained in way that perked up my interest all over again. I so highly recommend this book, that it has inspired me to write my very first review on any of the many items I have purchased on . It is hands down THE PERFECT beginner book.

great for an open minded child

Ordered as a gift for my granddaughter. She found it very interesting.

Since I've been interested in astrology lately I bought this book a couple of months ago. I've learned a lot about myself and my friends with this book. I don't understand how people don't believe in astrology. It's not just for entertainment purposes it's real, love this book :)

This was bought for my daughter so I really cannot review it. Just to say that she has used it an awful lot and says that she loves it.

This is truly excellent book to start learning about astrology. Highly Recommend 10/10

This is a great book for someone just getting into astrology.

Bought this for my granddaughter for Christmas and she loves it.
