Marie-Ange FaugÃ©rolas is the author of many novels and books on spirituality published in France and Canada. She has been personally connected with angels since she was a child. Her life is now dedicated to help others find their guidance, help, and love.

I have always believed in angels but I have never really incorporated them into my life, or had any inclination to learn more about them, until picked up this book on a whim. I have been floored by the amount of information, spirituality and love that has gone into this book. It has given me the inspiration to make angels an everyday part of my life. If there is anyone who loves angels, who has them in their cosmology, or who wants to learn more about them, then this is the only book you'll ever need.

Marie's book and her work has given me new hope when I felt down in life and out of options. When I first came across her, I needed a job and abundance. I performed those Angelic rituals and my life was forever changed!

A definitive guide to Angels - where they play into history, how they played a part in different cultures and guides as to how to work with the angels.

A wonderful read!

Love this book!!!

IT IS THE BOOK THAT WILL CHANGE YOUR LIFE FOREVER. Thanks to it, I felt the true existence of Angels. As soon as I received the book, it instantly facilitated my connection to Angels with a huge amount of energy and confidence. Considering that it never happened to me before as I am very grounded and a business oriented person, I must admit, this is not just a book. It is a celestial writing that brings forth luck and puts everything right in your life. I have a crazy experience that just happened. I felt it, I saw it and I am so proud to admit - Angels exist and if you pray - you have access to them and their MIRACLES. This book is UNIQUE, it clears the energy and makes it possible for great things to happen to you. Angels heal and navigate you on the path of great success and happiness you never had in your life before.

Gift for my daughter, she loves it!

A lot of redundancies.
