Customer Reviews

although i look all words up on the computer, this book is so handy and so quick and easy to use when i'm writing anything, that it's by my side all the time now. it's fun to just page through and see how the material is presented...I don't think Mr. Roget would be pleased, but I am!

Good to have but not as thorough as the plain thesaurus.

I'm happy using thesaurus.com, but I find this book very helpful because it gives unique words for common words. This book can make your writing more clever than it should be. ;-)

Yet another essential tool in my arsenal. While it is fundamentally more limited than websites such as thesaurus.com, it is nice to have a physical item for quick reference. And it keeps me from getting distracted by the Internet.

Pretty darned good and useful. I would have liked it organized a little better for ease of finding just the right word, but hunting things down has been a pleasure as I've stopped to visit other words and their variations. It's a terrific reference I've turned to several time. It's definitely one to keep close by when writing.

Has more bigger words that I will not use as much in my writing but it also teaches me more vocabulary

The format is easy to read and well thought-out.
