Customer Reviews

Mr. Paul has given us some extraordinary characters that have a breadth and depth to them few beginning storytellers can manage. Minerva Lee, like her little sister Athena, is a prime example of this!

Very good . Reading the rest of the series. I love learning more about Minerva and the girls Mom.

Was good to learn about Athena Lee's older sister but still love original series. Good read with a bit of background in the Forgotten Engineer universe.

I know her father was an ass but my God what an ass!! Great back ground story on Minerva. Glad to finally get more info!!

Always a great read. This is a series of books I would recommend to everyone.

Boring

Absolutely the best "free" author out there and better than most of the big names. Original. Funny. Suspenseful. A joy to read but you MUST read the rest of the series first. A little scatter-brained ... he writes a lot of series, the rest not so engaging to me. I want more of this one. A war between "The Project" and "Theai" would be fun ... I can help with tech details if needed. What we have is two societies -- each run by AIs ... each fighting each other. It is time for the AIs to go directly to battle.

Meshes well with stories and gave more info and details on Minerva's life, which I was wanting. Would not mind reading more about her. Nice story!
