Double Eclipse (Summer On East End)

Synopsis

The sultry sequel to *Triple Moon* from #1 New York Times bestselling author Melissa de la Cruz. Twin witches Mardi and Molly Overbrook are back for another summer in North Hampton, and this year they're serious about two things: avoiding trouble and dedicating themselves to rest and relaxation. Molly's headed to Aunt Ingrid's, while Mardi has convinced their father, Troy a.k.a. Thor, the god of thunder, to let her crash with her boyfriend, Trent, who also happens to be Tyr, the god of war. It's a tangled web they weave, but that's to be expected where gods and goddesses are concerned. Their vacation's just begun when an old secret is revealed, leaving Molly and Mardi to question everything they've ever known about their family. Then a hot new guy comes to town and starts brewing even more trouble. And soon enough, the twins are back to their old tricks. After an ancient prophecy comes to light, Molly and Mardi notice some mysterious changes, changes that will put their sisterhood to the ultimate test. *East End* is shaping up to be much more exciting than the girls were bargaining for, but what's a summer in the Hamptons without a little magic and mischief?

Love this book not much I dislike yes I'd recommend to everyone that loves the series of the books with witches

I just Love Melissa de la Cruz's books....

So I read this like in 6 hours, couldn't put it down! Now patiently waiting for next book!

Before we get started with reviewing Double Eclipse, I want to take a moment to remind you that it is the second book in the series. The first book, Triple Moon, is a great read if you haven't read it yet. This all being said, if this review may contain spoilers for the first book, but I will try to keep them to a minimum (really there probably aren't any at all). Continue at your own risk. Now to get this party started!! I really love this world that Melissa de la Cruz has created! Double Eclipse is the 5th book written for this particular world and the 2nd with the teenage twins as the focus characters. I have read all of them but the third book in the Witches of East End series (the adult series) and that is mostly just because I am usually absolutely horrible with finishing series up. I don't like the stories to end, so they can't if I never finish! So in Double Eclipse we have our twins Molly and Mardi, the twin Norse goddesses of Strength and Rage and daughters of the beloved and play boy Thor (or Troy if you want to go by his "mortal" name). And while they learned their lesson in the first book and haven't gotten into much trouble in the past year, they are again spending their summer in East End with the cast of characters that we came to love in the Witches of East End series. Yes, that is right, once again we get to see Freya and Ingrid and a few other familiar faces. Sadly though, they are very much just back ground characters, but we still get to see them again and that is always nice. In this book the girls discover who their mother is and from there things get all topsy turvy. Molly keeps having a strange dream. There are boys. There are prophecies. There are strange things happening. Pretty much it is exactly what we have come to expect from Melissa de la Cruz when it comes to this world and all the crazy goings on that happen in East End. And the twins have to figure out how to navigate it all. So before I get into what I really liked about this book, I really need to get into the one thing that really really bothered me when reading this. And I have no idea how it didn't bother me so much in the first one, as I know it was in that book as well....but there is just so much name dropping of rich super pricey items in this book. It really started to get annoying. I mean great...pricey cars, super expensive clothes, crazy expensive alcohol for underage teens (I know they are goddesses, but this is only their first incarnation! Can we get a responsible parent please?)...it was just sooooo much. And it was all over the place. I really could have done with a lot less of it. I understand that they are rich girls and that they come from A LOT of money, but it

doesn't need to be pointed out in such a way and over and over again. Other than that though, I liked it. As I said earlier I really like this world. So much goes on in East End and the cast of characters is just awesome. I love the whole concept behind East End and the Norse mythology that is built into the story - even if sometimes I find the mythology and stuff a bit hard to follow with how it is written. There is just SO much! And the characters. While I like both Molly and Mardi, I definitely have a favorite twin. I think it is probably hard not to. While they are similar, they are still very different. And this allows us, the readers, to be able to identify more with one or the other of them. If you are curious, my favorite twin happens to be Mardi (my favorite sister from the Witches of East End was Ingrid if you are curious). And the story was very interesting. It kept me wondering. I couldn't quite figure it out even though I thought I should be able to. It was like it was right there in my face the whole time. Of course I had some suspicions, but nothing I really wanted to call out. I just couldn't be sure. A great addition to this world, I cannot wait for the next! This review is based on an ARC provided by the publisher in exchange for a fair and honest review. All thoughts and opinions are my own.

This review was originally published on herestohappyendings.com. Review sequels is so difficult - especially when trying to talk about the book without giving away any spoilers, which as you know, I like to make sure doesn't happen in any of my book reviews. Anyway, if you enjoyed the first book in this series (or are looking to get into this series after reading the Witches of East End books), this is definitely another great book to add to your Melissa de la Cruz shelf. I haven't read anything else by Melissa de la Cruz, including the series I mentioned. Since this series is supposedly a spin-off type series, I worried that I probably should read those first, which is what took me so long to read Triple Moon (the first book in this series). Well, needless to say, I still haven't read those other books, and I have been getting along with these books just fine, so it isn't really all that necessary. I would, however, highly recommend reading Triple Moon first! This book picks up where Triple Moon left off - about a year and the continuing storylines of our two main characters, Molly and Mardi Overbrook keep going in this book, returning us to our favorite teenage twin witches. This summer, they're back for even more mischief and fun at North Hampton, but they plan on avoiding any kind of trouble this time around - focusing only on relaxation and the upcoming year. However, an old secret surfaces, causing the two of them to dive deeper into the mystery, trying to discover what's going on, questioning pretty much everything they thought they knew. Add in a hot dude, and the two of them are back to

causing trouble and being incredibly mischievous, despite their prior plans to be good. I loved Molly and Mardi in the first book, and I'm happy that the two of them are back in this novel and they're as awesome as ever. Melissa de la Cruz obviously put a lot of work into their characters, as well as their situations, family secrets, and the whole background for this book. If you haven't read the first book when you pick this one up, you're probably going to be a little confused, so I would definitely make sure to pick that one up first! If you want to add a little bit of magic to your bookshelf, definitely fall in love with this series because this awesome second book is better than the first! Note: I received an ARC of this book from the publisher in exchange for an honest review.
