Book by Korn, Frank J

I just read Frank J. Korn's book, Country of the Spirit...Vatican City. If someone were looking for an intro to the politics and history of the Vatican, I would recommend this book. Korn begins with a passionate overview of the Vatican city-state. Then he moves on to the history of finding the first Pope and to locating his grave today. (This, in my Protestant opinion, was the weakest chapter - not firming up the actual call of Peter to be the first pope, nor giving a secure early history of papal succession.) The next three chapters - explain the sacred college, curia, and the election of the pope - I found the most interesting. Korn explains how a person becomes pope and the workings of the system behind the walls which lead to the white smoke declaring the "discovery" of the new pope. He then looks at what the pope does during a normal day - referring to several recent popes for their itinerary. He devotes an entire chapter to the evangelistic ministry of Pope John Paul II, for whom he has obvious love. Curiously, he then turns to the underground tunnels under Vatican City; he ends with a short overview of the major buildings within Vatican City. Interesting and informative.
