Customer Reviews

I am a big fan of Catherine Coulter and typically enjoy reading her novels, but this time I was disappointed. I am not drawn to read books about paranormal activities, hence the reason I rated the book a two. I did read the book all the way through to see if I could make a connection, but it did not happen for me. I might recommend Knock Out to my students who like to read about weird happenings.

Be ready for a lot of supernatural powers!! Savich ad Sherlock have been thrown into two crazy

cases. This is a great read if you like suspense and special abilities.

I enjoyed Catherine Coulter's first books in this series, as I enjoy reading detective novels. However, the psychic/mind reading content really takes away from the stories for me. This will be the last in the series that I read, as that aspect of her stories seems to be taking over the detective part.

Great Wow and more wowI love thee characters....they mean,lovableAt the same time e...author seems to get it right all three time

Wish writer would stick to something more realistic, and not make believe!

Very GOOD !!!!Pat Knowles

Love the suspense. I have a difficult time putting this series down.

Had to give one star to be able to comment. I would not give it even 1/2 star. Did not enjoy what I read and would not recommend to one single person.
