Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

Husband is a math tutor for a local grammar school. He needed his own set of books to use. They arrived quickly and are the exact book the school is using.

I guess I wasn't paying enough attention when I bought this piece of junk. Written in worn out torn pages of junk. Going in the trash.

Not the best text for explaining concepts

I certainly use this in my classroom.
