Small little pocket guide, with great photos. Good to bring with in your car or for your little nature walk to explore and be able to see and name the birds. Great pocket guide for bird lovers!

I purchased the folding South Carolina bird pocket guide for a present and the recipient was thrilled with it, being able to use it easily while kayaking and birding. The plastic coating protects it near the water, and the thin size makes it easy to put into their pocket while birding. It was a great,practical gift!

Sent this to my sister near Phoenix. She's always complained we get prettier birds in Midwest. So I wanted her to learn some of the birds out there. She just got it, very quick shipping, and already has started to use it. Already she is enjoying it and planning some bird walks. So a worthwhile purchase!

I love this book - we have many beautiful birds in Arizona this book explains them very well

I bought this guide as I did not want to bring my heavier bird book on a recent trip. The guide is lightweight and proved very handy in identifying some common birds seen in Arizona as well as sanctuaries to see birds.

Gave it as a gift so never saw it, but the recipients loved it!

A handy guide for identifying our native birds. Any burdwatcher would enjoy.
