Invisibility Toolkit - 100 Ways To Disappear And How To Be Anonymous From Oppressive Governments, Stalkers & Criminals: How To Be Invisible And Disappear In Style

Synopsis

Your sovereignty is under attack. You don't need the red pill to see it because you've already been unplugged. It's all around you. Within this book lies top secrets known only to the FBI and a few law enforcement agencies: How to disappear in style and retain assets. How to switch up multiple identities on the fly and be invisible such that no one; not your ex, not your parole officer, nor even the federal government can find you. Ever. The Invisibility Toolkit is the ultimate guide for anyone who values their privacy or needs to disappear. Whether you're running from stalkers or hit men or overzealous cops or divorce courts, you owe it to yourself to learn how to protect your greatest asset: You and your family! But be warned. Going incognito is dangerous and for that you need a dangerous book. This book is one the NSA doesn't want you to read! It's stuff you won't see in any James Bond or Bourne film or even Burn Notice. But if you love freedom, this book is mandatory reading because it's life-saving reading. You'll learn:- How to disappear using CIA counter-surveillance techniques in the Far East- How to wear a perfect disguise. - How to bring down a drone. - How to be invisible in Canada, Thailand, China or the Philippines. - How to use Darkcoins on the run.- How to fool skip tracers. - How to sneak into Canada. - How spies use networking to be anonymous. - Edward Snowden's biggest mistakes.- The fallacies of True Lies.- Opsec in foreign countries. You've got just two choices: Live free on your feet or as a slave on your knees. Let me show you how to break those chains. An international companion piece to J.J. Luna's "How to Be Invisible," it's not just for those who want to know how to be anonymous, but how to do so ethically and how to protect their families and assets well into the future... and in *any* country on Earth!

Customer Reviews

Awesome book! I bought it because it sounded intriguing, never thinking I wouldn't get anything done today because I just could not put it down. Having lived in Ontario and Louisiana, I can attest to the accuracy of his observations, including those of going through US/Canadian customs. Great advice for many areas of one's life, especially if you have never taken your privacy seriously.

If you need this information, this book does more harm than good. Linux is presented as being essentially unhackable, there is no discussion of system hardening or even browser fingerprinting. Author mentions wireless triangulation, but not IMSI catchers. 80% of the book is random stories on topics such as video games, the remaining 20% is very poorly researched. This guy has never disappeared, doesn't know anyone that has, and knows next to nothing about doing it.

Outstanding, equal to JJ Luna

The book was interesting for the insights on some foreign cultures and mentions of some anonymity tools. I'm not dealing with a stalker or any current personal financial or political threats. I likely won't need to hide in another country. This is anonymity way beyond what a normal American would find useful.

Matter-of-fact information. I loved the book and the author is very entertaining. Easy read and great writing style! Highly recommend.

Good. Some rehashed stuff you can find and some not so useful but not bad to have on the Kindle.

Lance has a great style of getting info to you and telling a great series of stories about the real world.

Not as informative as expected--but not bad. 3 stars.
