Customer Reviews

My daughter was slightly disappointed because it wasn't as interesting to her as the books in this series on interpersonal topics. I have no idea what she was expecting though, and was surprised she asked for it in the first place since she has been completely unconcerned with her appearance to date. Like, to the point where I told her she had to brush her hair and wash her face without being reminded for two weeks to earn it. She's ten. I will say, she read the whole thing in one day and her outfits now sometimes match. So I'm pleased and suspect it meets its goal. I skimmed through it and thought it was a pretty good run down on the basics of building a wardrobe- how to determine proper fit, the names of different cuts of tops and bottoms, etc. I also liked the encouragement to try different styles and experiment with different looks and the framing of it as a creative pursuit, and

importance of respecting that everyone's style is different.

my ten year old granddaughter loves this book, and she has read excerpts of it to me. i am so impressed with this whole series of books, and this one touches on a subject that is often difficult for tween girls. it is well written and offers practical advice with a positive slant, as always. i wish this series of books had been around when I was growing up. i would have had fewer insecurities for sure. my granddaughter is fortunate to have the kind of guidance from a knowledgeable source to help her make choices, particularly when advice from her grammy doesn't sound cool enough.

amazing

This book was ok! It really didn't say much to help me though! It might have helped you! It's better to subscribe to AG Magazine

Daughter loves it

Great for my 11 year old daughter!

Good book for the young girl in your family.

This has been a great guide for my daughter and she loves it, and I'm happy because she is no longer wearing big flowers with little flowers because they are all flowers. YEA!
