Customer Reviews

This was such a great buy. I have always liked Cannonball and found myself playing out of this for hours the same day I got it. Many amazing songs in this collection. I recommend this to anyone with any kind of interest in Cannonball's music.

Outstanding

great jazz book for alto sax

A great book... Highly recommended

This book makes mastering classical jazz more achievable.

As a professional musician, I have loved the Charlie Parker Omnibook. This is nothing like it. The publisher got their hands all over it and made it completely illegible with unnecessary accents, slurs, key signatures (rather than accidentals, as is standard in the omni book) 8va's and then compressed the lines too close together. It was not worth the money.

Remarkable collection of transcriptions of Cannonball's brilliant music (jazz) improvisations. I've discovered a bunch of good licks that I plan to borrow for my own improvisations.

I have to agree with Derek. The phrasings are almost undecipherable. I've been working on Waltz for Debby and the notations make it very difficult to work through.
