# Death Note, Vol. 6: Give-and-Take

## Synopsis

Although they've collected plenty of evidence tying the seven Yotsuba members to the newest Kira, Light, L and the rest of the task force are no closer to discovering which one actually possesses the Death Note. Desperate for some headway, L recruits Misa to infiltrate the group and feed them information calculated to bring Kira into the open. But the Shinigami Rem reveals to Misa who the Kiras really are, and, armed with this knowledge, Misa will do anything to help Light. But what will that mean for L...?

## Customer Reviews

A must read, especially if you've already watched the anime. (Like most.) It's extremely twisted with an amazing plot, & characters. There's much left out that's important to the plot & development that was not in the anime. I definitely highly recommend this series.

Where the actual product is concerned, it is just very finely made. The cover images are beautiful as well as the panel art and the image on the inside depicting L and Kira. Across the top of the pages, there's a countdown of how many days L has left to live. My friends find it morbid, but it really is just

an excellent touch. There is a ribbon-bookmark too, something I always find useful. Most incredible/geeky part? It's written by "M". Mello. Just like how the Los Angeles BB Murder Cases was narrated by him. Just YES. The story is good too. It improved on the couple of things that bothered me in the movie. There is hilarity from seeing a more human side of L - other reviewers say it is out of character, but I could imagine him doing all things told in the novel. The only thing I would change would be how the doctor died as it was less dramatic than it was in the movie. And yes...they actually brought in the REAL Near!! :D Overall? Cool story, amazing product.

Love it, but have to be very careful since the front and back cover seem to have some velvety texture; I wonder if it was painted on because it start chipping in a few small places but not noticeable enough to make a big deal about it.

Had no idea this was even made. I guess this is based off of the spinoff L movie that has to do with a viruse outbreak on a plane and terroist. I was sold on just the fact they had another novel the first one they made was amazing and im sure this one will be just as well. Simple you like death note you like L hurry up and put this in your cart.

Great!

Suspenseful story. Sometimes a little wordy but a page turner.

Came in a good amount of time I know I'm really late in getting into this series but I loved it. If u are reading for the first time like me I recommend getting the black series cause you are going to through the volumes fast!

Awesome book. L is my favorite character and this shows a different side of him.
