Age Range: 8 - 12 years

Grade Level: 3 - 7

Customer Reviews

There are many helpful tips packed into this book designed to make a kid's life better. With over 70 scenarios given with step-by-step instructions on how to deal, it's worth having around. Irritating situations like forgotten lunch money and bullies are covered, along with life threatening ones like medical emergencies. Adults can review these with kids in advance to help prepare them if they pop up. The back contains safety checklists and information worksheets for parents and there's a simple glossary of terms for the little ones.

I teach a parenting class and this book gives parents ways to talk to children on many different topics.

This is a great book to have to broach uncomfortable topics and situations with your child. It presents a situation and then has recommendations for what to do. We read the situation with our son and then have an open dialogue - what does he think? what would HE do? Then we go over the recommended actions with him and why. It makes us feel better to have him prepared. There's lots of good examples and it's a good tool to use with your kids.

This book is a great way to have your kids develop skills to handle difficult situations life might deal them. It's not scary, very matter of fact. The right page presents the reader with a scenario such as, "What would you do if you arrive home after school and realize you have forgotten your keys?" and asks how they'd handle it. The left page gives tips on how to handle said situation.

This book is good for all ages. My 4 and 5 year old are already getting good things out of it. We obviously do not go through the entire book with them as there are some scenarios that are really over their head. But this book opens the doors for good discussions about almost everything. I will be using this book with them until they are at least 10 - 12 years old. There were some things in there that I would have never even thought of! It touches on not going with strangers to what to do if you are home alone and smell gas! Good stuff!

This is a good conversation starter for children whether it's in the classroom or with your kids about uncomfortable but relevant topics. It's a great away to prepare children for situations where their boundaries can be compromised. Also, it teaches children to be self aware and lays the ground work for identifying their emotions.

I thought this book would be helpful to teach my son how to cope with "tricky situations". I knew the book was old, but I was sure I could compensate for whatever was out of date. When the book arrived, I went through it, removing the pages that gave inappropriate, outdated advice. I removed so many pages that the book was worthless. The first aid advice was to clean cuts with iodine or rubbing alcohol (now known to cause further damage). The advice if someone touched you in a way that made you uncomfortable was to avoid this person. I don't have the book in front of me, so I don't have direct quotes, and my memory of what I read is not exact.

Will not be effective for kids in this format. Dull, only the cover is in color, the rest is black and white.
