Flesh And Blood Low Price CD: A Scarpetta Novel

Synopsis

Dr. Kay Scarpetta is about to head to Miami for a vacation with Benton Wesley, her FBI-profiler husband, when she notices seven pennies on a wall behind their home. Is this a kids' game? And if so, why are all of the coins dated 1981 and so shiny they could be newly minted? Her cell phone rings, and Detective Pete Marino tells her there's been a homicide five minutes away. A high school music teacher was shot with uncanny precision. Yet no one heard or saw a thing. In this twenty-second Scarpetta novel, she is in the unsettling pursuit of a serial sniper who leaves no incriminating evidence except fragments of copper. The victims appear to have had nothing in common, and there is no pattern to indicate where the killer will strike next. Scarpetta goes looking for answers and comes face-to-face with shocking news that implicates her techno-genius niece, Lucy, Scarpetta's very own flesh and blood. Performed by Lorelei King

Customer Reviews

Patricia Cornwell is recognized as one of the world's top bestselling crime authors with novels translated into thirty-six languages in more than 120 countries. Her novels have won numerous prestigious awards including the Edgar, the John Creasey (New Blood) Dagger, the Anthony, the Macavity and the Prix du Roman d'Aventures. Beyond the Scarpetta series, Patricia has written a definitive book about Jack the Ripper, a biography and two more fiction series among others. Cornwell, a licensed helicopter pilot and scuba diver, actively researches the cutting-edge forensic technologies that inform her work. She was born in Miami, grew up in

Montreat, North Carolina, and now lives and works in Boston.

This was a disappointment. SPOILER ALERT!!!! Bringing in a character from a previous book as the killer didn't allow for any character development and felt like the reader was cheated. That along with the ending made it feel like this book was just a prelude to the next book.

It is very rare that I don't finish a novel or audiobook that I start. This was one of those rare cases. Some words to describe this story: tedious, pedantic, boring. This is not at all like nor up to the usual high standards of Cornwell's work.

I love her book . This is another good one. Love all the Scarpetta Novel.

Love all her books!

looking forward to listening to
