Customer Reviews

When I was a kid I remember having this amazing dot-to-dot book. I saw page after page of dots and had no idea what they were before I started. It's been a long time since I've seen anything like that. I really wanted to recreate the magical experience I had for people today. The Greatest Dot-to-Dot Book in the World is a vast collection of mystery images that won't reveal themselves until you get started. Also included are unique new connect-the-dot inventions and ideas that have never before seen print. I think that this is the most exciting dot-to-dot book to come out in 30 years.

A designer and artist, David Kalvitis has a fine arts degree from Syracuse University where he studied editorial design, painting and photography. He has operated a graphic design business in Upstate New York since 1987. David is a lifelong fan of puzzles and games of all kinds, and has spent many hours both playing games and designing them. He is pleased to release his products to the public, and hopes they will be fun and relaxing for people of all ages.

I got this for my 11 year old kid that doesn't like anything that involves a pencil and paper. We started off looking for dot-to-dots that I could print off the computer, apparently they were too easy for him. He said that he wanted dot-to-dots that he didn't know what the pictures were until he was done. We found this gem of a dot-to-dot book and decided to give it a try. It doesn't cost too much, so I figured if he didn't like it, no biggie. HE LOVES this book and after 3 days he's completed almost all the dot-to-dots. The great thing about this book is, it requires him to read the directions and to work slowly! We are off to buy book #2

Great book! Purchased it for my 83 year old house-bound father in law. He has found it challenging (some were too hard for him) and enjoyable. Not your typical little-kid dot to dots where you can see what the picture is after just a few dots have been connected. Takes a while for the image to unfold, which adds to the fun. Highly recommend for all ages!

Love this book. It was delivered on Sunday and it's now Wednesday and I've completed the book. I can't wait to get more of these!! Kudos to the creator, very great job. Another reason I like this book compared to others is that you can't see what it will be beforehand, and I really like the element of surprise

If those adult coloring books actually stress you out, get THIS! This is seriously soothing and I love how the dots go up to 200. I wish this book was thicker because I do a few each night and fall asleep quite peacefully after a stressful day. Amazing, all natural, way to destress!

As a child I enjoyed dot-to-dot books and thought this might be fun. It met and surpassed my expectations. As with most puzzle books, it began with easy ones and progressed to more difficult ones. Surprisingly, I had to erase a couple of times when I missed a number. The "tips" with each different type of puzzle were very helpful. The variety was interesting...not all just connecting numbers 1 to whatever. I usually worked over half the puzzle before I could tell what it was. The

finished product was very satisfying. There are no completed pictures of the puzzles in the back, so it is up to you to do it on your own. I think it is my all-time favorite puzzle book.

This is a KIDS dot-to-dot. I thought it was an adult one, got it in the mail and it is nothing compared to the other dot to dot i started doing for ADULTS. Don't waste your money, this one is now sitting in a cupboard somewhere. Not fun, barely 100 dots per picture if that.

My 8 year old enjoyed the book. It goes from 1-200ish. Only docking a star because it's a little pricey for 40 pages. She has asked for a second book.

So not worth the money. I bought this thinking it was going to be as complicated as the dot-to-dot books made by Thomas Pivatte and it wasn't at all what I expected. It was as simple as a child's dot-to-dot book.
