very nice, just what I was looking for

Great

Good selection

Some interesting plans and since we do not want to climb stairs every time we go to the master bedroom, it saves time looking at plans that we would not be interested in

just as expected

Served it's purpose

Just wasn't impressed and have found many other floor plans I like elsewhere. Go to the library and

save your money.

This book is a giant rip-off. Most folks who would buy this are looking for plans for 1 1/2 (Cape) to 2 story homes with first floor Master Bedrooms. Half the plans are for single story homes. That is just a Ranch, which has to have the MB on the first floor. Most of the plans that show 1 1/2 to 2 story homes don't show the second floor plan. Most good plan books - which sells - for 1 1/2 to 2 story homes have several with first floor Master Bedrooms, WHICH SHOW THE SECOND FLOOR. The "Baby Boomer" title is just a bait and switch fraud. Save your money.
