The Back Alley Small Business Tax Guide: A Tax Overview Of Sole Proprietorships And Single Member LLCs

Synopsis

Taxes suck, and the convoluted, technical instructions pumped out by the IRS rarely make things any better. I know what it's like: you really just wanted to work for yourself and make a buck, but now Uncle Sam is knocking on your door, demanding his cut, piling on form after confusing form just to make sure he's gotten his due. If you had wanted to do taxes, you would have bought a green visor and dumped your personality at the nearest thrift shop. Yet you've gotten dragged into the mess anyway. This guide can't fix everything, and it can't do your taxes for you. But it can help! The book is designed to give a clear and simple overview for small businesses just starting to get in the game, along with a number of common small business tax questions. The content of The Back Alley Small Business Tax Guide is specifically aimed at people filing the 1040 Schedule C. Don't know that is? Don't worry. That's explained, too.

Book Information

Customer Reviews

This is \$0.99. it is not a complete guide, nor is it voluminous. If you are starting your own business it

is a primer on where to start your accounting and what to do. you will go other places for more in depth but he has the basics covered. yes it is humorous, so if you want to rat this as a serious subject (meaning you do not have a sense of humor) you could look elsewhere, but as I said, \$0.99. you will get more than your money's worth.

Good tax information presented with a sense of humor. It made a painful boring subject tolerable. The book makes taxes for small business people easier to understand.

Great tax blogger with a succinct, easy to read, and most importantly not boring tax book!
