# Summary Of Capital In The Twenty-First Century: By Thomas Piketty | Includes Ana

## Synopsis

Capital in the Twenty-First Century: by Thomas Piketty | Summary & Analysis A Smarter You In 15 Minutes | What is your time worth? Economics inequality, uneven concentration of wealth, and prospects of economic growth will stay amongst the top of the world's issues list of all time. Modernization of economic growth as well as more even spread of knowledge have played a great role in minimizing inequalities at least to a lesser extent than what Karl Marx has predicted. However, the tendency of returns on capital to exceed economic growth rate still aids to the creation of significant inequality. Brilliantly added with empirical data and not just arguments, "Capital in the Twenty First Century" provides a comparative historical research on income inequality that is definitive, fresh, and enlightening. A major work on inequalities throughout economic history, "Capital in the Twenty First Century" uncovers major economic and social patterns, providing answers through a vast collection of data to supplement the already provided clear guiding theories. This book is extraordinarily ambitious and rigor, aiming to reorient the reader's understanding of the history of economy. Further, the readers will be confronted by awakening economic lessons in today's modern life. It is monumental and influential especially with regard to making an economic analysis. Written by a renowned French economist, Thomas Piketty, "Capital in the Twenty First Century" is one of the most important books of the year, if not of the decade. It compares history and its relevance in the modern day society. Product Dimensions: 6 x 0.1 x 9 inches

Shipping Weight: 4.2 ounces (View shipping rates and policies)

Average Customer Review: 3.4 out of 5 stars 16 customer reviews

Best Sellers Rank: #526,611 in Books (See Top 100 in Books) #94 in Books > Business & Money > Processes & Infrastructure > Research & Development #2807 in Books > Business & Money > Education & Reference

## Customer Reviews

The SUMMARY [https://www..com/dp/B0181EL6OU/ref=cm\\_cr\\_ryp\\_prd\\_ttl\\_sol\\_0...](https://www..com/dp/B0181EL6OU/ref=cm_cr_ryp_prd_ttl_sol_0...)book is loaded with horrible grammar and syntax mistakes. Just buy and skim through the original book if you're short on time. This short review work is of zero value. The original book is AWESOME!

Well synthesized and detailed explanation of issues. Several useful commentary adequate for general reader and highlighted important items raise the comprehension of the title. Highly recommended for anyone those who like to read about and want to understand economy and politic.

I found the summary difficult to read and way too brief. I guess there is no substitute for taking the time to read the full book.

Get the numbers without the burden of reading the entire work - although that would be welcome.. sometime.

Really useless

Good read for a plane ride or a relaxing day. I loved this book and will recommend to friends. Bland at times but nothing overbearing.

good way to save yourself 500 pages.

This is a super good and interesting book.
