LIST OF 10: The True Story Of Serial Killer Joseph Naso (Detectives True Crime Cases Book 7)

Synopsis

"With great diligence, the author illuminates the murderer's darkest thoughts without romanticizing them--and gives the victims the written equivalent of a proper burial."--Kirkus Review
"Gritty. True. Compulsively readable. This is his best book."-- Gregg Olsen, NY Times Best Selling Author
A narcissistic professional photographer lived a dangerous double life as a serial killer. He'd focus his rage on prostitutes mostly. It wasn't uncommon for him to bring them home then try to explain why they were there to his wife. Sexual urges met, either via rape or after paying for kinky sex, the killer would strangle his victims and dump their bodies in places he knew the police would eventually find them. The evil murderer needed the world to know that he was smarter than the police and women meant nothing to him but a necessary sexual inconvenience. Then, by a stroke of chance and aggressive police work, the wheels of justice stumbled upon a lead. It was nothing more than a lined sheet of paper that read, "List of 10," but shortly after its discovery, a task force was created and a serial killer was nabbed. This book is about the victims he left behind, not the person who took their lives. I will never condone such actions, nor will I try to rationalize his behavior. He will go to the grave, hopefully sooner rather than later, knowing the identity of four women from his fabled List of 10. It's his sick way of showing people he's still in charge. His name is Joseph Naso, and this book will grip you from the beginning and won't let you go until the final word.

EDITORIAL REVIEWS
"Current law enforcement officer C.L. Swinney has put years of research into the bizarre case of serial killer Joseph Naso -- the California Alphabet Killer -- who had been murdering women since the 1970s but was only brought to justice in 2011. Swinney's "List of 10" is compellingly written in the tradition of classic hard-boiled true crime writing with the insights of a cop."- Peter Vronsky: Author of "Serial Killers: The Method and Madness of Monsters" AND "Times Square Torso Ripper"
"Like the great Joseph Wambaugh, Chris Swinney writes with the kind of authenticity that comes from having worn the uniform of a law enforcement officer. Gritty. True. Compulsively readable. This is his best book."- Gregg Olsen: NY Times Best Selling Author

A very in-depth look into the crimes of Joseph Naso. Although the book is also about the killer himself, the author takes great care in making sure this is not just whom the book is about. It is about a list of women that Joseph had killed. Joe was very calculating in stalking his prey, sometimes taking weeks to know the victim before pouncing and tearing many lives apart. This book kept me interested and is one of Mr. Swinney's best works to date. I highly recommend reading this.

Joe Naso should be the last name on his list of ten. A person like this should have been put down long ago. C.L.Swinney does a great job of covering the crimes while giving meaning to the victims

without memorializing Naso. Swinney went to great lengths to interview the people involved in the case and even has notes from Naso himself, giving the reader insights to the workings of a crazed mind.

Joseph Naso, serial killer murdered 6 women. He would attract prostitutes by offering to take pictures of them in lingerie. Had it not been for petty thefts, Naso might have never been found out. He logged his sex attacks in a "rape diary". He was also associated with the Alphabet killings (the victims had the same letter in their first and last names) another great book from Chris Swinney.

This book was very well written coming from different perspectives of witnesses, victims, officers, and the suspect. The author really went out of his way to make this a complete and precise book. I could not put the book down after I started reading it. I hope CL Swinney keeps continuing on writing great books like this.

This book reads, as it was written, as if it were a very detailed perp report. It was written in a style that is used by law enforcement officers of which the writer is in that category. It would have been complimentary if more research were done to include his back story. It was a good read!

Interesting true crime book that engages the reader in the stories. I would recommend this to readers who enjoy intense true crime.

I selected this book because of the author and true serial killer. I have not heard of this man before now but what a sick, sick, sick man who deserves to be executed. What he did to those women makes me cry. Hats off to Mr. Swinney for his hard work, both police and author.

No spoilers Well researched. Easy to follow. Interesting tie-in with alphabet murders although author does not believe it to be true. Probably a coincidence but interesting just the same. I gave BOOK a 4 because of repetition.
