Don't Push The Button!

Synopsis

A USA Today Bestseller! There's only one rule in Larry's book: don't push the button. (Seriously, don't even think about it!) Even if it does look kind of nice, you must never push the button. Who knows what would happen? Okay, quick. No one is looking... push the button. Uh, oh.

"There's still monstrous fun to be had in Don't Push The Button! . . . interactive, silly, and just plain good fun. The simple but colorful illustrations are absolutely fitting for the idea of the book and the age of the readers." " - Parenthood.com" "Kids have fun pushing the button, shaking the book, and scratching Larry's tummy. This is a winner for reading aloud to a group." My 2 year old daughter & my almost 5 year old son just laugh & laugh every time we read it. My kids absolutely adore this book. They would make me read it to them 100 times a day if I would agree to it. They think it's hilarious! I highly recommend. We have a zillion books & this is definitely their

favorite!

I bought the board book version originally in another store because my son loves pushing buttons on everything from light switches to phones. He loves the book and "reads" it at least five times a day. This version is missing two pages from the original that has a few motions and "ham" moments for him to act out, but it doesn't change the story. This was purchased as a keepsake and has a nice, semi-plush cover. If you have a child whom loves to do minor interactions with things. They will love this book. They can make sounds as they push the button and laugh at what happens to Larry. Fun for adults to enjoy with their kids and short enough to keep a young one's attention for 2 minutes.

My 2 year old loves this book and is constantly asking for it. I thought the idea would go over his head, but he giggles and loves pushing the button (while making sound effects). My favorite interactive book for toddlers! Such a fun read.

Buy this book!!!! It's so entertaining and simple. My boys had it memorized after reading it quite a few times and then always would request to read it at night themselves. They laughed the whole way through and had fun completing the actions throughout the book.

Awesome book to read with preschoolers! It's a must have in our classroom and is asked to be read multiple times a day. The children love the instruction followed by the reaction on each page. So happy we purchased this!

My son's new favorite book! No more stalling for bedtime when I ask if we should go get ready for bed and read the button book. Ha. Love it! Simple and fun!

My 3 year old LOVES this book. It is the perfect fit for children. Somewhat interactive. He grabs the book now and brings it to us. He'll push the bottom and run haha

Got this book for a birthday gift for my nephew. The book is actually really enjoyable and had a good deal of interaction for the kids to enjoy. Great interactive children's book.
