## Customer Reviews

Don't depend on these for your finals, but they are a great last minute tool the morning of a final for a quick refresher.

Hits many of the necessary high points of Article 9 of the UCC. I recommend if you're taking a secured transactions class.

This is a must for ST. ST is a bit overwhelming at first but looking at the big picture first helps understand the small subparts, and this chart definitely helps with that. I got an A on this course thanks to this chart and the Secured Transactions Q&A.

a lot that was over in class was missing in the Quik Guide its that way in all of them. When we go over in class. Its not HELPFUL because a lot of important DETAILS are missing.

This chart is a great study aid for basic secured transactions law. It is a useful study aid for law school exams and the bar exam. It's breakdown of priority is very easy to follow, and the definitions given are clear and concise.

Overall, this is a good, quick study sheet.

Informative

Good review, thorough.
