Detailed and integrative. Makes learning kanji more fun when it's easier to understand the concepts and allows for better memorization.

An excellent addition to my Japanese language books, if you are ready to learn Kanji I highly recommend this. Each kanji is drawn and explained along with some cartoon drawings as a memory reference. A great buy.

Excellent book the author is always very thorough, even with his previous hiragana and Katakana book. Highly recommended if you are studying kanji

Excellent resource. This book is helping me tremendously in reaching my Japanese language goal. Once you've learned the Hiragana and Katakana this is the next book to get.

A great book that breaks the characters down into memorable parts.

I am very happy to purchase this book, very useful!

I like the larger range of kanji covered. The layout is nice, and the lesson reviews are helpful. My only complaint is that the practice boxes are a bit too small for a beginner. I have to practice writing a kanji for awhile before I can make it look nice that small.

As good as the hiragana katakana book. Good
