Customer Reviews

Way better then most of the other books by this author Thu one is really helpful, clearly written and has a well planned layout with diagrams and pictures. Love it! Can you make one for Redstone?

Good item

It was very helpful.

No more...stop the Minecraft insanity.

This review is really good for minecraft starters. However,you got some of the facts wrong, for example that a note block is for music, not actually for making notes. Otherwise, it was a great book and would really help starters!

This is truly an amazing guide. I already applied what I learned. I want more books like this.

I would recommend this to any gamer new , old ,or anywhere in between (and I also have to fill a word limit for this review)

Perfect welcoming gift for anyone who is a first time crafter. You will kill it when you threw it out and make it happen. Trust me when I say that it will be good for you.
