## Customer Reviews

This was an awesome gift. I bought it for my brother who loves playing the piano and who just happens to love Michael Jackson songs. The music is very detailed with bass/treble clef and words to each song so the whole family can sing along. I just happen to read music and be a singer so this gift worked out perfectly, we both can stay on the right key. I also enjoyed the added pictures of Michael Jackson in the beginning of the book. This is good for intermediate to advanced artists (piano, singers, etc) that are looking to develop their musical skills with popular tunes. Love it !!! Highly recommend this product, plus it came right on time.

I purchased this for my 12-year-old daughter who loves piano and MJ. She was thrilled with this book. she has been taking piano lessons for about 5 years. I had to come up with some piano music for her for summer since our piano teacher is on maternity leave. I can't get her away from the piano. She just loves this book. She wants to play this all the time. It's great to see her with so much enthusiasm. I highly recommend this for intermediate to advanced piano skills.

Exactly that #1's.

Some of the arrangements need a little work but overall a really good book. Filled with all the great Michael songs.

not what I was looking for

This is a great book for piano-playing MJ fans. It has a range of difficulties so even an advanced player can have something challenging to play. And if you are an MJ fan, it's just so fun to be able to play these favorites! I wish someone would record these songs in an album and sell that!

It is exactly what I was looking for and more. I didn't realize that it also provided the song lyrics. I bought it as a gift and my friend absolutely loves it.

fantastic, there is only one michael j.
