Animal Communication Course: Heart-to-Heart Telepathy With Animals

Synopsis

Inspiration and information to help you understand heart-to-heart telepathy with animals is provided. This book gives you uplifting ideas from a variety of animal communicators. Author shares personal stories of her experience with animal communication. Exercises that you can practice to learn animal communication are at the end of the book. Animals communicate telepathically with pictures, words, emotions, sensations of the body, and inspired awakened awareness. Like people, each animal is more adept with particular modes (visual, auditory, somatic, energetic) than others because each one is unique. This book assists you with sensitizing yourself to the world of communication in which animals live. Animals communicate across time and space. Animals can contact others miles apart and on the other side. Animals communicate via intention, life-purpose, and great self-acceptance. As you learn the world of animals, you enter worlds of unconditional love, joy, and peace. You discover the oneness of all existence in actuality beyond concept. You enter a world of whole love.

Everyone can learn to speak to animals! It's simple, requiring a full focus of the heart and soul. Practice is to go deeper rather than to obtain more skills. The animals have been my deepest teachers of spiritual unwinding into full whole love and compassion, peace and unconditional joy!

"Hi Laurie, I have been meaning to email and tell you how spot on some of your comments were

about our pets. Lila's description of being not emotional and light (that is a subtle description with a cat but really nails her). She has always seemed detached (in a good way). Her wanting the door left open. Boy do we know that! Shanti's description of being simple and peaceful and still inside and how she needs time alone could not describe her better. And the comment about sounds, no extra sounds in the house etc. That is major. Niko's description of being eager to do a job but not sure what is so like his energy. And being needy and wanting to be included and be doted over and be the center of things. Wow! It was really quite amazing how well you pin pointed their personalities. Thanks again." ~ Irene Â "Dr. Laurie Moore is TRULY ONE of the MOST GIFTED Animal Communicators I have ever worked with. Not only does she have a keen sense of connecting with the animals' deep inner knowing, experience, beliefs and feelings, she also delivers this information with great accuracy, care and compassion. The animals she works with, as well as their humans, receive TREMENDOUS benefits from working with her ~ benefits which add to their lives and improve the quality of their overall emotional and physical health, as well as their relationships together. I highly recommend her! Laurie, YOU are MAGnificent! BRAVA!!!! Much love and appreciation, Lori Ann Spagna" "Dr. Laurie is the closest thing to an angel on earth that there is. The sessions with Dr. Laurie were just what I needed." ~JoyceAnne Pierce "We brought our entire seminar to Dr. Laurie's Satsang where she did public readings. All of our clients said she truly identified the personalities of their animal friends. Later she spoke to me about a red bird who kept coming to our house and she was right on with what she said." ~ Trish Regan, Dolphin and Whale Swim Seminar Leader & Intuitive "Dr. Laurie is a holy person." ~ Penelope Smith, Author of Species Link and World Recognized Animal Communicator "She gave me so much relief after talking to my beloved dog on the other side." ~ Denise Jacobs "Our cat is behaving very differently since Dr. Laurie talked with him!" ~ Fred Barnes

This is a wonderful and informative book for anyone with the desire to learn telepathic communication with non-humans and humans alike. The only reason I did not give the book a 5-star rating is because of the ridiculous number of typographical errors. Seems this book was never proof-read. Nevertheless, it is a very good book.

I had just lost a pet and it was the perfect way for me to work through my grief plus so informative and easy to follow

Thanks love this book.

This book (with lots of typos) was not what I expected. It contained some interesting information, but it did not seem to be a "course." There was nothing "new" in it. I'd read it all before. I would not recommend it.

This book is very Inspirational & Informative. Dr. Laurie and other Animal Communicators share their own personal stories of communicating with Animals through telepathy. I found the book to be very uplifting by understanding how Animals communicate in their own unique variety of ways. Animals teach us Oneness, Joy and Unconditional Love. At the end of the book, there are lessons for you to practice to learn how to communicate with Animals yourself. I highly recommend this book to anyone wanting to learn to communicate with your furry family members!

We really can communicate with animals, and Dr, Laurie Moore shows you how to do it in this book. She has an incredible connection with our non-human companions, and lays it all out for us in a way that is easy to understand and is a pleasure to read. My relationship with the cats in my life has been immeasurably enhanced by taking her animal communication workshop and reading her books, Thank you, Laurie!

When she writes about Obama's election being celebrated by all of the animals on Earth and explained how the dolphins whales are all dancing with songs of rejoice (looped!)- it demonstrated to me that the author is not totally there! Pass on this one.
