I have been waiting for this book for so long and it finally came. In fact it came earlier than expected! This book was really good, naturally there are things I don't like and think that could have been done better. (not worthy enough of diminishing the star rating). The story was great and helped finish off the series, the pacing of this book was extremely fast. The pacing could have been slower and book extended to greater describe certain situations. (it just felt rushed) The main plot points in the book were given adequate time, there are just some side situations that could have be

prolonged to give a better view to the reader. That's all for now, I am going to reread the series to get more of the series.

What an epic finale to a truly epic series!! Everything I could have hoped for and more was placed into this book, and I could not be more satisfied with the ending that I received. At this marvelous conclusion to the Matefinder series, I was not left with a single lingering question, and though my heart aches for those lost souls, it rejoices over the happy endings which were given to the survivors. Balance has been restored, and it's a new era of peace and prosperity for all supernatural beings. Aurora has come so far from the inexperienced and newly changed werewolf, to the radiant young woman and alpha female we see before us as we conclude our journey with her. She has learned so many harsh lessons, and become a stronger person for those lessons learned. I'm honored to have been able to take this path with Aurora, and I have nothing but praise to offer to Leia Stone on an extraordinary series and fine set of characters. I highly recommend this to anyone who enjoys a tale of trials, triumphs, and sacrifices, and to those saps out there who love a little HEA like me. I promise, you won't regret it.

And so it ends (at least for now). I have to admit that I didn't like this one as well as the first book. I guess I just don't enjoy it as much when Aurora and Kai are not only battling the bad guys but also each other. The hits just kept coming in this book. But all's well that ends well. I recommend this book. Enjoy! ãfÃ ã Å,Ã ÆœÃ â ¬

Over all I would say I really liked this series. The first book Matefinder was engrossing and I read it in one sitting, ignoring my plans for the day and losing myself in the interesting shifter world Leia Stone created. I felt the same with the second book. In the final book Balance, I still enjoyed the book however it felt a little flat to me, not as well thought out and possibly rushed? I found myself stopping a couple times saying "wait, what?" All in all it completed the series, answered questions and was worth reading, especially for followers of the series, this is a must read.

An epic ending to an amazing series so glad I got to be sucked into this world for a short while!

I loved the book and the entire series. I hope to see more from the twins and pack. I would definitely recommend. I even thought I had the Devi split figured out but nope nice twist. I thought it would happen later.

Loved it! There's just something about a character that kicks ass.

I read these books in like three days. The storyline keeps you reading. I absolutely love the characters and the story, however the details felt a bit rushed to me at times. I think that the overall story allowed me to still fall in love with the series and characters. I would suggest this series for people that love fantasy, romance, and action.
