License To Spill (Pretenders)

Synopsis

Three girls, two guys, five secret journals. The five most popular students at Noble High have secrets to hide; secrets they wrote down in their journals. Now one of their own exposes the private entries... When our parents were growing up they were encouraged to make mistakes. That's how they learned. But us? Our mistakes go viral. There is no delete button on the Internet. What kind of future do we have if we can't escape our embarrassing pasts? I must come off as quite the hypocrite; complaining about our overexposed lives in a book of secret journals I have leaked. But these pages hold proof of how this pressure affects the "best" of us... so until the heat's turned down, keep reading.

"A fast-paced read with surprisingly compelling characters." --School Library Journal on Pretenders

Lisi Harrison is the author of The Clique, Alphas and Monster High series. She was the Senior Director of Production Development at MTV and Head Writer for MTV Production. Lisi is currently pretending to write her next novel. Lisi lives in Laguna Beach, California.

For starters I didn't even know this was a series, I just saw the pretenders at a book fair and finished

it at work when my heart sunk as I was left with a cliff hanger. I bought this next book right when I got home. That was two days ago. Everyone knows the first book is what gets you started and if it was good enough to get the second, then it'll be the best. Only reason why I didn't give it five stars, is because I think Sheridan is being too dramatic (even for Sheridan), Jagger is just bugging me, and Vanessa is being annoying over her grades. Other than that, it was fantastic. Of course it's recommend this, it's way better than I imagined it'd be and it cleared up a lot of questions from three first novel... even if I was left with yet another cliff-hanger.

I loved the first book (except for the abrupt ending), and I enjoyed this book for the same reason---each character was unique and the author did a great job switching voices to keep them that way. Some loose ends got tied up in this book while other cans of worms were being opened....a good balance for a series. Looking forward to book 3.

My shipment came in about a week and the book was in better condition than I expected it to. It did have library film on it (though I'm sure they specified that in the details) but I just simply removed it and the book looks and feels good as new. I'll definitely come back for more!

Item as described. Would buy from again. Thank you!

Omg love this book! Can't wait for more!

I like the book and I love that it came to me so fast.

Read this book! I thought it was amazing! I highly recommend it to anyone who enjoys an exciting and realistic story!
