Park Avenue Prince

Synopsis

The prince of Park Avenue finally meets his match in a feisty Manhattan princess. I've made every one of my billions of dollars myself - I'm calculating, astute and the best at what I do. It takes drive and dedication to build what I have. And it leaves no time for love or girlfriends or relationships. But don't get me wrong, I'm not a monk. I understand the attention and focus it takes to seduce a beautiful woman. They're the same skills I use to close business deals. But one night is where it begins and ends. I'm not the guy who sends flowers. I'm not the guy who calls the next day. Or so I thought before an impatient, smart-talking, beyond beautiful heiress bursts into my world. When Grace Astor rolls her eyes at me - I want to hold her against me and show her what she's been missing. When she makes a joke at my expense - I want to silence her sassy mouth with my tongue. And when she leaves straight after we f--k with barely a goodbye - it makes me want to pin her down and remind her of the three orgasms she just had. She might be a princess but I'm going to show her who rules in this Park Avenue bedroom. A sexy, standalone, contemporary romance.

Customer Reviews

I think I want to live on Park Avenue. Louise Bay introduces us to the Park Avenue Prince and who wouldn't want to meet Sam Shaw. Sam Shaw is not only a billionaire but he is a man that has had a past that he seems that there will never be a chance moving on from until the day he meets Grace Astor. Grace Astor is a woman who has grown up on Park Avenue but has moved on and become a successful woman owning her own gallery but when it comes to a personal life she has the best of

friends but the worst luck in love. When Sam & Grace meet both of them have walls in place not only on a personal level but an emotional one too, but can spending time together knock down those walls and bring them to a point where maybe they can see a HEA. There will be some ups and downs but with the love of your friends and family maybe you can get to the point that you can see that something's are worth fighting for.

Park Avenue Prince by Louise Bay.....What happens when the hot Prince meets the beautiful Princess? You get the beautiful perfect modern day fairytale. Sam and Grace find each other at Grace's art gallery, neither one looking for a relationship. One kiss, bantering and dares or trades between each other, is all it takes to become more than one night. Wow this was my first book by Louise Bay and she is an amazing author, I can't wait to read more. This is one book you will want to read. I voluntarily reviewed an advance reader copy of this book.

This book had an awkward start for me. In the beginning we meet Grace, who is a young gallery owner. She's smart, independent, beautiful and not at all self centered or conceited. I liked her a lot. Then she meets Sam, who is a billionaire, guarded and aloof, but somehow he takes an interest in her. Something sparks his curiosity and he wants to get to know her. At first she really is not interested, as she's not attracted to him. He's not her type. She thinks he's just another entitled rich man. So at first their interactions are almost awkward. I really didn't feel any chemistry between them. Not even a spark. The first time they're intimate it was weird to me. It felt almost like a business transaction, in the way that it was impersonal. I almost gave up and stopped reading, thinking the whole book would be like that. I'm definitely not a fan of insta love, but I think there has to be some chemistry between the H and h from the beginning. But I was wrong. The author very subtly developed that chemistry, and I think it was brilliantly done. We get to experience how the couple get to know each other, and how their feelings start to develop and grow. I was a little disappointed when the H pushed the h away. I thought he was being overly dramatic not being able to get over what happened in his past, but I guess it was all for the benefit of giving us angst within the plot. I would have liked to see him grovel a little more at the end, but I also understood that it wasn't in Grace's nature to make him suffer. She was too nice and she loved Sam too much. I'm glad I stuck with the book past the first chapters that I found a little dull. It was worth it, and now that I read the book I can perfectly understand why the author wrote them like that. It is my first book by this author, but it won't be the last.

Park Avenue Prince by Louise Bay is the second standalone book that follows the same group of friends introduced in King of Wall Street and now followed by Duke of Manhattan. It is a sexy romance with plenty of angst and heartwarming moments. Told in dual POV we get to meet Grace Astor who finally owns her own art gallery and Sam Shaw who has built himself up from nothing into a Park Avenue Prince. *“Wait and hope.”* When these two meet the sparks are there but both of them have goals in their lives that won't allow such interferences as attraction. Until Sam can't help himself and Grace can't help but say yes. Sam makes her a deal she can't resist and as a result they get to spend more time together, picking out art for his apartment and learning more about each other. *“Ultimate bliss.”* Sam's background causes him to keep everyone at a distance and when something happens that causes him to react poorly all the emotion bleeds into the page. His losses at a young age, Grace's pain at his reactionary behavior. It is palpable and infuriating and perfectly written. The Happy Ever After is there but the journey has its ups and downs. Enjoy!

Just not a great one. And it could have been. The writing was good, with an occasional grammatical error here and there. The characters are where Ms. Bay was a hit and miss. While most of the secondary characters felt well-developed, I felt that Sam was too much of an automaton. I really got what Ms. Bay was going for, but it seemed that Sam's realization of what he was doing, and what he could potentially lose, came upon him at just the opportune time. I guess what I'm saying is that it felt contrived. I wondered if Angie had never had this conversation with Sam before, about his ability to love, etc. I know I heard Grace say it, but it didn't seem to sink in when she did. So it bothered me. I also had trouble feeling their passion when they weren't in the throes of sex. I mean, all these "complaints" could certainly be my stuff, and not what other readers felt, but since this is my review... Overall a good read. I just see the potential for Ms. Bay to produce some great reads. I hope some of the other ones I read well show me I'm right.
