Super comprehensive and insightful. Dr. Lennox knows his archetypes and the language of the unconscious. I keep it on my bedside so I can look up the things that arise in my dreams before they fade away. :)

This is a dream interpreter's dream book (pun intended)! I have the first book that has helped me process and personalize messages from my dreams. The second book is a great follow up! There are 100s of more symbols with the meanings of why they may be appearing in your dreams for you to interpret. A must have for all!

Gift for a friend to use to analyze her dreams. The descriptions are pretty basic but help give some insight into whatever you may be dreaming about. I love that it comes from a reputable source (Actual PhD) and one of the most respected pagan publishers out there. Great book!

I wouldn't call this a complete dictionary, there are several common dreams that are not profiled in this book, but for the most part it is well done.

This book has a lot of meanings of symbols in dreams but I feel that a lot of these meanings are a bit vague or repetitive. Still a good, simple reference book

Love the explanation of the dream symbols makes understanding your dreams easy

My husband loved it. Very easy to read

good reference book
