Customer Reviews

If you are looking for the CSET Art Bible this is not it. It is however a cheap book to add to your study tools. I found Art History books, iPhone Art quiz apps and documentaries on art to be more helpful. If you are just looking for a guide to the test's format then this is the book beyond that I wouldn't expect much.

I am not satisfied with this purchase. Not only was this book very limited in scope, but the answers were not detailed enough. The CSET is a major test, and test prep should include detailed explanations. The book has not proved to be very helpful at all, and I find it was a complete waste of my money. I found online test prep products to be much more useful.

Very pleased with my purchase. The items were delivered on time
